ECO film festival

Amazing films about the earth

MARCH 18, 2014

"A high-action drama filled with edge of your seat moments. A must-see for anyone concerned with the plight of our oceans and our world" 4.5 stars - Tribute Magazine

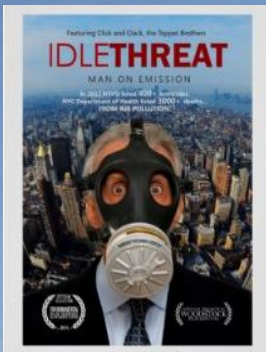

MAY 8, 2014

"Genetic Roulette unveils a world most of us have never seen. It raises alarming questions about GMOs, and we deserve answers. For all that you love, hear this message and act now". - F. Moore

JUNE 3, 2014

"The most important documentary film since An Inconvenient Truth." - Filmstar

SEPTEMBER 23, 2014

One man, determined to reduce air pollution in his neighbourhood and combat global climate change, confronted New York city's lax engine idling enforcement efforts. This film chronicles the challenges and triumphs of his campaign.
