Amazing films about the earth

MARCH 21, 2018

Coral reefs around the world are vanishing at an unprecedented rate. A team of divers, photographers and scientists set out on a thrilling ocean adventure to discover why and to reveal the underwater mystery to the world in *Chasing Coral*.

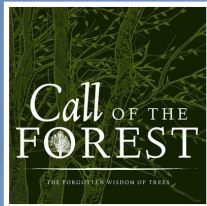

MAY 17, 2018

Set to a rich orchestral score from legendary composer Philip Glass, *JANE* offers an unprecedented, intimate portrait of Jane Goodall - a trailblazer who defied the odds to become one of the world's most admired conservationists.

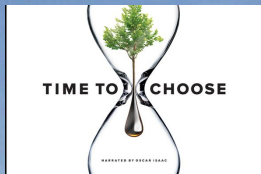

SEPTEMBER 19, 2018

From markets and housing to movie theaters and credit unions, co-operatives are helping to regain the radical vision of co-operation. *A Silent Transformation* explores the seeds of economic democracy, global solidarity, and a new popular movement to transform society, focusing on communities within Ontario.

OCTOBER 17, 2018

In *Call of the Forest*, visionary scientist Diana Beresford-Kroeger takes us on a journey to the ancient forests of the northern hemisphere, revealing the profound connection that exists between trees and human life and the vital ways that trees sustain all life on the planet.

NOVEMBER 21, 2018

Academy Award®-Winning documentary filmmaker Charles Ferguson (*Inside Job*, *No End in Sight*) turns his lens to address worldwide climate change challenges and solutions in his new film *TIME TO CHOOSE*.
