Fresh

FRESH celebrates the farmers, thinkers and business people across America who are re-inventing the food system. Each has witnessed the rapid transformation of our agriculture into an industrial model, and confronted the consequences: food contamination, environmental pollution, depletion of natural resources, and morbid obesity. Forging healthier, sustainable alternatives, they offer a practical vision for a future of our food and our planet.

Call of Life ~ Facing the Mass Extinction

A beautiful and informative film that is also a call to action. Call of Life features in-depth analysis with thought-provoking interviews of articulate scientists, environmentalists, and visionaries. With alarming data about the Earth's rapidly dwindling plant and animal populations-and the skyrocketing rate of extinction—this film tells us that we as humans have to change the way we living." The Clean Bin Project

Is it possible to live completely waste free? Partners Jen and Grant go head to head in a competition to see who can swear off consumerism and produce the least landfill garbage in an entire year. Their light-hearted competition is set against a darker examination of the sobering problem waste in North American society. "One of those rare documentaries that make you feel like you can do something about the problems in our world." - Vail Daily News
