Helpful Native Species Resources

Planting native species is important to encourage bio-diversity and to support our local wildlife. Here are some of our favourite resources to help get you started!

Why YOU Should Grow Native Species
Our friends at Carolinian Canada are dedicated to building a healthy and bio-diverse landscape in the Carolinian Life Zone (this includes Burlington!) Check out their wonderful resources on how you can get involved at home.
[Click here for more info!]

The Tree Atlas
This interactive map will help you choose the best native trees for your area.
[Click here for more info!]

Grow Me Instead: A Guide for Southern Ontario, Beautiful Non-Invasive Plants for Your Garden
This resource guide is a great tool to learn about common non-native plants and what YOU can choose as good plant alternatives in your home garden.
[Click here for more info!]

Gardener's Action Plan
This one-pager outlines what any gardener can do to encourage bio-diversity in their gardens, with helpful links to information about invasive species, native plants and how to grow and manage gardens.
