

COMMUNITY SPOTLIGHT

Anna's Story

Anna Pautler is an exceptionally dedicated, valued BurlingtonGreen volunteer. Her numerous contributions during 2020 alone directly impacted our organization's ability to carry out our core pillar of advocacy work.

Anna generously brings her passion for environmental work, combined with her extensive technical expertise to all her volunteer contributions, resulting in top-notch outcomes that serve our organization very well. In addition to serving on our volunteer Advocacy Team, Anna also contributes her time and talents to the Bay Area Climate Change Council Implementation Team for Buildings where she represents BurlingtonGreen. We were so thrilled when Anna agreed to serve on our Organization's behalf because we have every confidence in her abilities and the strong ambassador qualities that she consistently exemplifies.

Anna's dedication, commitment and subject matter expertise shine through in her volunteer work. Whether it's providing detailed, thoughtful comments on Burlington's Climate Action Plan, assessing the environmental implications of the Downtown policies in Burlington's Official Plan or providing recommendations for numerous local environmental issues, Anna is tireless in her dedication to advancing a greener and more environmentally conscious Burlington.

Anna enjoys nature walks with her toddler and working in her garden. She is an active participant in BurlingtonGreen's annual Clean Up Green Up, volunteering to clean up our city and plant native trees to improve local biodiversity. A friendly, positive, professional team player, Anna works very well with other team members and extends a helping hand to all volunteers.

We are truly fortunate to have Anna as a valued volunteer for our organization - she is an inspiration to us all!

Thank you Anna

BurlingtonGreen

Together we make a difference
