

# COMMUNITY SPOTLIGHT

## Lisbeth's Story

"Since joining BurlingtonGreen in 2020, I have been incredibly lucky to have been able to work with an amazing group of youth and adults alike to help change the environment in Burlington for the better.

The BurlingtonGreen Youth Network (BGYN) has been an amazing outlet in which I can devote my time to a cause in which I can see noticeable changes and am able to express my opinions in a comfortable and supportive environment. Through our various guest speakers, documentary screenings, and informed discussions I have become more aware of environmental issues, both here in Burlington and around the world, that I was not previously aware of. Volunteering with BGYN has also encouraged me to pursue a career in the Environmental Field.

Helping out with activities such as the Burlington Seed Swap and Clean Up Green Up among others have allowed me to work with many inspiring individuals and learn many new things about our environment. On top of this, volunteering with BurlingtonGreen has inspired me to become more involved in other committees at my school and other support groups throughout my community.

Volunteering with BurlingtonGreen has been an absolute pleasure, and I look forward to what's to come in the future!"

- Lisbeth
