

Ward 3 Candidate: Tony Brecknock

Question 1		Flood Infrastructure & Stormwater: Burlington has faced repeated severe flooding, including the 2024 storm that impacted over <u>1,600</u> homes and businesses. Will you support accelerating the City's stormwater planning, flood-mapping and infrastructure investments needed to reduce the risk and impacts of future flooding?
Response:	Yes	Blocked storm sewers and unfinished/outdated flood infrastructure must be addressed immediately. Too often our homes and business are at risk.
Question 2		Transit Investment & Emission Reductions: With vehicle emissions generating <u>over 40%</u> of Burlington's greenhouse gases, improving and expanding public transit is central to reaching the target to be a net carbon neutral community by 2050. Will you commit to supporting increased funding investments and service enhancements – such as fleet electrification, increased frequency, route reliability, and network connectivity – to make transit a competitive alternative to driving?
Response:	Yes	More frequent, reliable and electric public transit is needed as soon as possible. It is the only way to reduce traffic congestion and emissions.
Question 3		Climate Equity & Vulnerable Communities: While every resident in the city of Burlington will be impacted by climate change, not every resident will be impacted equally. The most vulnerable residents who are facing financial, social, mental and physical barriers will experience compounding effects and bear disproportionate impacts of the climate crisis. (<u>Burlington Climate Plan 2026-2031</u>) Will you commit to supporting the budget investments required for the implementation of the City's climate mitigation, adaptation, and emergency response plans to protect these disproportionately impacted communities, and all residents?

Response:	Yes	No Comment Submitted.
Question 4		Biodiversity Action Plan: Burlington currently has no municipal Action Plan to protect and care for local nature, and yet the implications of the biodiversity crisis (such as the acceleration of invasive species) continue to grow. Will you commit to directing staff to develop a Biodiversity Action Plan by 2028 with associated budget investments required for its implementation?
Response:	Yes	No Comment Submitted.
Question 5		Aggregate Moratorium: To safeguard Burlington's groundwater, air quality, and the Escarpment ecosystem, will you commit to support the <u>Reform Gravel Mining Coalition's call for a provincial moratorium</u> (temporary pause) on new and expanding aggregate operations? (The purpose of a moratorium is to allow time to conduct a broad consultation process, with Indigenous Nations, affected communities, independent experts and scientists, to chart an improved path forward.)
Response:	Yes	No Comment Submitted.
Question 6		Green Building & Development Standards: Provincial legislation <u>restricts municipalities' authority to mandate green building performance</u> beyond the Ontario Building Code. Consistent with the <u>City's Horizon 2050 net -zero commitments</u> , will you proactively advocate for stronger energy-efficiency and sustainability standards in Burlington's new developments, with associated incentives, planning processes, and legal tools available to the City?
Response:	Yes	No Comment Submitted.
Question 7		Accountable Reporting: To ensure all Council members receive staff reports that are consistently accountable to the City's <u>Horizon 2050 Vision and 25-year Strategic Plan</u> guiding principles, will you direct staff to adopt an environmental, social, and economic lens to all reports, starting 2027? (example: <u>UN Sustainable Development Goals Framework</u>)
Response:	Yes	No Comment Submitted.
Question 8		Personal Commitment: What are some actions you personally take to minimize your environmental footprint?
Response:	Yes	We buy local produce as much as we can, recycle and walk as much as we can. As a family we try to conserve water and electricity as much as possible - turning off lights, keeping the temperature at a reasonable level.
